STAR WARS

IMPERIAL ASSAULT

THRAWN, GRAND ADMIRAL

This pack provides the Thrawn, Grand Admiral plastic figure that can be used when playing a mission. The other components in this expansion are incorporated as follows:

- Add the Deployment and Command cards to their supplies.
- If you own the *Tyrants of Lothal* expansion, the Imperial player can choose the "Art of War" Agenda set when building their Agenda deck at the start of a campaign.
- If you own the *Tyrants of Lothal* expansion, shuffle the Skirmish Mission cards into the Skirmish Mission deck. These cards use the "Imperial Tower" map (see below).

DEPLOYMENT CARD RESTRICTIONS

Some Deployment cards can be used in only one style of play in *Imperial Assault*. A Deployment card marked with a Campaign Deployment Icon () can be used only in a campaign, while a Deployment card marked with a Skirmish Deployment Icon () can be used only in a skirmish.

NEUTRAL DEPLOYMENT CARDS

Deployment cards with a Neutral Icon and card back do not belong to an affiliation. When creating an army for a skirmish, a player may choose to include Neutral Deployment cards as if they belonged to their affiliation. Neutral Deployment cards cannot be used in a campaign.

POWER TOKENS

Various cards and abilities in *Tyrants of Lothal* allow figures to gain **POWER TOKENS**. These tokens represent a variety of things that increase a unit's effectiveness in battle, from enhanced armaments to affinity with the Force.

When a figure with a power token declares an attack or is declared as the target of an attack, that figure may discard one of its power tokens. If it does, apply +1 of the symbol on that token to that attack's results. For example, if a figure spent 1, that figure's player would apply +1 to the defense results.

When an ability instructs a figure to gain a specific power token, that figure's player claims one token of that type from the supply and places it either near that figure on the board or on that figure's deployment card or hero sheet if that figure is the only figure in its group. When an ability instructs a player to gain any number of , that player gains that number of power tokens of their choice.

Power tokens are not limited by components. If players run out of a token type, they should use a suitable replacement, like a coin.

Each figure cannot have more than two total power tokens. If a figure would gain more than two, its player must choose tokens to discard until the figure has two. A figure cannot use more than one power token per attack.

DEPLOYMENT AND SETUP

Initial Groups: Death Trooper (2), Probe Droid.

Reserved Groups: Death Trooper, Imperial Officer, Thrawn (Grand Admiral).

Open Groups: 3.

Special Setup: Increase ⚙ by twice the threat level and resolve an optional deployment.

EVENT SUMMARY

- **Round 1:** Personal Guards
- **Round 6:** End of Mission

- **First security station destroyed:** Alarm Systems
- **Door opens:** What You Seek
- **All terminals destroyed or all heroes wounded:** End of Mission

MISSION BRIEFING

After successfully sneaking aboard the Chimaera *using stolen docking codes, you move cautiously through the corridors of the massive Star Destroyer. At the door to the infiltrator droid processing center, a Death Trooper guard steps in your path. "Access codes?"*

Your hesitation is unacceptable, and the trooper levels his rifle.

- Doors are locked.
- Imperial mission tokens represent security stations. A figure can attack a security station (Health: 2 plus the threat level; Defense: 1 ▼). When all 3 security stations are destroyed, the doors unlock.
- The mission will progress when a door opens (⏻). The mission ends at the end of Round 6 or when all heroes are wounded.

PERSONAL GUARDS

At the end of Round 1:

An injured trooper slinks away and wheezes into a comlink, "Rebels! Send backup!"

- Deploy the reserved Death Trooper and Imperial Officer as close as possible to a single door. If the doors have been opened, deploy these figures to the yellow point instead.

ALARM SYSTEMS

When the first security station is destroyed:

- Increase ⚙ by the threat level.

WHAT YOU SEEK

The first time a door opens:

- Open all doors.
- The yellow deployment point is now active.
- Increase ⚙ by the threat level and resolve an optional deployment.

The control room is filled with terminals, each processing valuable Rebel information collected by the infiltrator droids. The grand admiral turns from his work. "You're late. Disappointing."

- Deploy Thrawn to the red point. Thrawn cannot be defeated. When Thrawn has suffered ✖ equal to or greater than the threat level, he recovers all ✖, the heroes may push him up to 3 spaces, and he becomes Stunned.
- A Rebel figure can spend 2 movement points while adjacent to a terminal to which Thrawn is not also adjacent to destroy it (👁 or 🔧). That figure may suffer 1 ✚ during that test to reroll any number of dice.
- The mission ends when all terminals are destroyed (⏻).

END OF MISSION

When all terminals are destroyed:

You sprint away, leaving smoldering wreckage and a stunned Thrawn behind. You transmit the coordinates of the nearest airlock to your pilot and escape the wrath of the Empire.

- Heroes receive 100 credits per hero.
- If playing a *Tyrants of Lothal* expanded mini campaign, resolve the "Blinded" Epilogue card.

At the end of Round 6 or when all heroes are wounded:

Thrawn's troops circle you and begin to close in. You throw an entire satchel of smoke grenades at their feet and run choking to your waiting shuttle.

- If playing this mission as a side mission, the Imperial player receives Thrawn (Grand Admiral) as a villain.
- If playing a *Tyrants of Lothal* expanded mini campaign, resolve the "Scramble" Epilogue card.

ADDITIONAL REWARDS

- Each player receives 1 XP. Heroes receive 100 credits per hero. The Imperial player receives 1 influence.
