STAR WARS

IMPERIAL ASSAULT

BOBA FETT, INFAMOUS BOUNTY HUNTER

This pack provides the Boba Fett, Infamous Bounty Hunter plastic figure that can be used to replace his villain token when playing a mission. The other components in this expansion are incorporated as follows:

- Add the Deployment cards to their supply.
- The Imperial player can choose the "Soldiers for Hire" Agenda set when building his Agenda deck at the start of a campaign.
- If you own the *Twin Shadows* expansion, shuffle the Skirmish Mission cards into the Skirmish Mission deck. These cards use the "Imperial Space Station" skirmish map (see below).
- Add the Command cards to the pool of cards that a player can use to build his Command deck.
- Add the Condition card to the pool of Condition cards.

WEAKENED

Weakened is a new condition whose effects are detailed on its Condition card. Since this expansion does not include condition tokens for Weakened, a coin or other suitable substitute may be used instead.

SKIRMISH ATTACHMENTS

Some skirmish upgrade Deployment cards list the word "Attachment" above their abilities. These cards can be attached to other Deployment cards as follows:

- When deploying units during skirmish setup, if a player has one or more "Attachment" cards included in his army, he places each of these cards on one of his non-upgrade Deployment cards.
- Each Deployment card can have only one "Attachment."
- Abilities on "Attachment" cards apply to all figures in the corresponding group.
- Many attachments require the group to have a specific trait, such as "*Trooper*." Attachments with these restrictions cannot be played on a group that does not have the trait.

When a group with an "Attachment" card is defeated, the opposing player scores VPs equal to the deployment cost of the "Attachment" card in addition to the VPs he scores from the defeated group's Deployment card.

MISSION BRIEFING

You thought you and your cargo were home free, when suddenly, Slave I *appeared in the sky behind you, shooting down your ship. Now you're crash-landed in the middle of the forest, surrounded by Imperials and mercenaries. They must have had this set up all along.*

An initial squad rushes in, loading your cargo onto hoversleds for transport. You fend them off, but a fresh wave is just behind them, and all around you Imperial power stations continue to surge.

- The Rebel mission token represents the cargo.
- At the start of each Status Phase, the Imperial player advances the cargo. When he does, he moves the cargo 1 space. Increase the number of spaces by 1 if there is an Imperial figure adjacent to the cargo. Increase the number of spaces by 1 if there are no healthy heroes within 3 spaces of the cargo.
- At the end of each round, increase ⚙ by the number of terminals on the map. A Rebel figure can attack a terminal (Health: Threat level, Defense: 2▼).
- The mission ends at the end of Round 6 (🏁) or when the cargo enters the Extraction Point.

EXTRA EFFORT

After each time the Imperial player advances the cargo:

The Imperial player chooses 1 of the following:

- Increase ⚙ by 1.
- 2⚙: Move the cargo 1 space.

PREDATOR

At the end of Round 2:

You hear the roar of engines and mechanical squeals and hisses as Boba Fett's massive Firespray lands near the site of your conflict.

The mercenary strides out, weapons drawn, prepared to do whatever it takes to secure his bounty.

- Deploy the reserved Boba Fett to the red point.
- Increase ⚙ by the threat level.

END OF MISSION

At the end of Round 6:

Diving through the mass of Imperials and bounty hunters, you steal the cargo back from the would-be robbers. You lay down covering fire as you escape deep into the woods, hoping a new extraction shuttle can reach you soon.

- Heroes receive 100 credits per hero.

When the cargo enters the Extraction Point:

Held back by waves of suppressive fire, you are unable to prevent the bounty hunters from loading your cargo onto the extraction ship. The Imperial shuttle takes off, laden with valuable Rebel supplies, with Slave I *following close behind.*

- The Imperial player receives Boba Fett (Infamous Bounty Hunter) as a villain.

ADDITIONAL REWARDS

- Each player receives 1 XP. Heroes receive 100 credits per hero. The Imperial player receives 1 influence.
