STAR WARS

IMPERIAL ASSAULT

GENERAL SORIN, VICIOUS TACTICIAN

This pack provides the General Sorin, Vicious Tactician plastic figure that can be used when playing a mission. The other components in this expansion are incorporated as follows:

- Add the Deployment cards to their supply.
- If you own the *Return to Hoth* expansion, the Imperial player can choose the "Bombardment" Agenda set when building his Agenda deck at the start of a campaign.
- If you own the *Return to Hoth* expansion, shuffle the Skirmish Mission cards into the Skirmish Mission deck. These cards use the "Climate Research Camp" skirmish map (see below).
- Add the Command cards to the pool of cards that a player can use to build his Command deck.

CONTROL

Some skirmish missions require players to control deployment zones, in addition to tiles or tokens.

- A player controls a deployment zone if there is at least one friendly figure in any space of that deployment zone **and** no hostile figures in any space of that deployment zone.

SKIRMISH ATTACHMENTS

Some skirmish upgrade Deployment cards list the word "Attachment" above their abilities. These cards can be attached to other Deployment cards as follows:

- When deploying units during skirmish setup, if a player has one or more "Attachment" cards included in his army, he places each of these cards on one of his non-upgrade Deployment cards.
- Each Deployment card can have only one "Attachment."
- Abilities on "Attachment" cards apply to all figures in the corresponding group.
- Many attachments require the group to have a specific trait, such as "*Trooper*." Attachments with these restrictions cannot be played on a group that does not have the trait.

When a group with an "Attachment" card is defeated, the opposing player scores VPs equal to the deployment cost of the "Attachment" card in addition to the VPs he scores from the defeated group's Deployment card.

COMPONENT BREAKDOWN

DEPLOYMENT AND SETUP

Initial Groups: AT-ST, Snowtrooper, Wampa.

Reserved Groups: General Sorin (Vicious Tactician), Probe Droid.

Open Groups: 3.

Special Setup: Increase ⚙ by twice the threat level and resolve an optional deployment.

EVENT SUMMARY

- **Round 3:** The AT-ST
- **Round 5:** Reinforcements

- **Barricade discarded:** Showdown
- **Energy field discarded**: Security Measures
- **AT-ST defeated or all heroes wounded:** End of Mission

MISSION BRIEFING

The cold stings as you approach Sorin's base. A growling hum fills the air as the base's guards file into position, training their blasters on you.

- The neutral mission tokens form a barricade. The barricade is blocking terrain.
- A Rebel figure can attack the barricade (Health: Twice the threat level, Defense: None). A hero can interact with the barricade (2 ✋) to discard all of its tokens.
- The AT-ST is inactive. While inactive, the AT-ST cannot activate. The AT-ST can enter and occupy interior spaces.
- The mission ends when the AT-ST is defeated (💀) or when all heroes are wounded.

THE AT-ST

At the end of Round 3:

- The AT-ST is no longer inactive. Apply additional Health to the AT-ST equal to twice the threat level.
- ▸ The Imperial player chooses 1 of the following:
  - The AT-ST can interrupt to perform a move or attack.
  - Increase ⚙ by the threat level.

REINFORCEMENTS

At the end of Round 5:

- At the start of each Status Phase, increase ⚙ by the threat level.

SHOWDOWN

When the barricade is discarded:

The barricade splinters and reveals General Sorin himself. "Kill them!" he shrieks, ducking for cover.

- The blue deployment points are now active.
- Deploy the reserved General Sorin and Probe Droid to any blue points.
- The Imperial mission tokens represent an energy field. Rebel figures treat the energy field as blocking terrain. Imperial figures treat the energy field as normal terrain.
- A Rebel figure can interact with the energy field (👁 or 🔧) to discard it.
- Apply additional Health to General Sorin equal to twice the threat level. While General Sorin is defending, if he is adjacent to a friendly figure, add 1 white die to his defense pool.

SECURITY MEASURES

When the energy field is discarded:

- ▸ Increase ⚙ by the threat level.
- The red deployment point is now active.

END OF MISSION

When the AT-ST is defeated:

A well-placed attack triggers a chain reaction in the massive war machine. You duck for cover as it explodes. Sorin flees, cursing you and his "incompetent underlings."

Left alone in the suddenly silent base, you trigger a self-destruct sequence, leaving it a smoldering ruin.

- ▸ Heroes receive 100 credits per hero.

When all heroes are wounded:

The colossal AT-ST lumbers toward you, its armor impervious to your attacks. As you are forced to flee the battle, you hear Sorin behind you laughing and mocking your cowardice.

- ▸ The Imperial player receives General Sorin (Vicious Tactician) as a villain.

ADDITIONAL REWARDS

- ▸ Each player receives 1 XP. Heroes receive 100 credits per hero. The Imperial player receives 1 influence.
