IMPERIAL ASSAULT

IG-88, ASSASSIN DROID

This pack provides the IG-88, Assassin Droid plastic figure that can be used to replace his villain token when playing a mission. The other components in this expansion are incorporated as follows:

- The Imperial player can choose the "Droid Uprising" Agenda set when building his Agenda deck at the start of a campaign.
- Shuffle the Skirmish Mission cards into the Skirmish Mission deck. These cards use the "Ord Mantell Junkyard" skirmish map (see below).
- Add the Command cards to the pool of cards that a player can use to build his Command deck.

1 Deployment Card (IG-88)

ORD MANTELL JUNKYARD

Skirmish Map

A Mind of its Own

The junkyards of Ord Mantell hold some of the most valuable refuse in the galaxy. Damaged or discarded mechanical equipment and starship parts abound. In the hands of the right mechanic, these salvaged items can nearly become as good as new. Knowing one of those mechanics yourself, you make your way toward the junkyard, constantly on the lookout for other scavengers. As you reach your destination, your hear a threatening, mechanical whirring noise. You turn to find the source of the sound and see a giant security laser self-activating. You think it might be wise to finish this salvage rather quickly.

B Most Dangerous Game

You and your quarry have been tracking each other across Ord Mantell for days now. This is one of the most elusive teams you've ever had to hunt down and defeat. Realizing that they may prove too challenging to locate, and knowing that they have as much reason to attack you as you do to attack them, you choose to simply move out into the open. Or, at least, to a known junkyard: an area easy enough to locate, but with enough spots to hide and ambush. With luck, you'll be able to maintain a tactical advantage over your prey.

DEPLOYMENT AND SETUP

Initial Groups: Probe Droid.

Reserved Groups: None.

Open Groups: 3. No *Creatures*.

Special Setup: Set aside 1 green Imperial mission token. Increase ⚙ by twice the threat level and resolve an optional deployment.

MISSION BRIEFING

Sparks fly as the explosives you laced around the door to IG-88's command center detonate. Laser fire blasts through the opening, and you duck into cover.

After laying down some suppressing fire, you are able to gain some ground into the center. Through the smoke and blaster fire, you are surprised to see IG-88 in the wave of guards. If you can take him out quickly, this job might even prove to be easy.

- Doors are locked. A Rebel figure can attack a door (Health: Twice threat level, Defense: 1 black die).
- Green Imperial mission tokens represent copies of IG-88. Copies of IG-88 are villains that use the IG-88 (Assassin Droid) Deployment card but do not have the "Assault" ability. Each copy is in its own group.
- The mission will progress when a door opens (⚙). The mission ends at the end of Round 6 or when all heroes are wounded.

DROID UPRISING

The first time a door opens:

- Red deployment points are now active.
- Open all doors.
- Place a green Imperial mission token on the blue point.
- Increase ⚙ by the threat level and resolve an optional deployment.

MASS PRODUCED

At the end of the round in which "Droid Uprising" resolves:

A third IG unit walks through the door with armored plating and a massive blaster rifle. He looks in your direction, his mechanical eyes glowing bright red.

- Deploy the IG-88 (Assassin Droid) to the yellow point.
- Apply additional health to IG-88 equal to the threat level.
- IG-88's "Relentless" ability also causes the target to suffer 1 ✖.
- The mission ends when IG-88 and both copies of IG-88 have been defeated (⚙).

END OF MISSION

When IG-88 and both copies of IG-88 have been defeated:

"You cannot stop the inevitable," IG-88 hisses at you in a rasping, mechanical voice as he retreats. "We are your superiors. The day is coming soon when we will take our rightful place as masters of this galaxy!"

- Heroes receive 100 credits per hero.

At the end of Round 6 or when all heroes are wounded:

Droids circle around you, threatening as more IG units advance. All you can do is blast through the wall of mechanical bodies and retreat.

- The Imperial player receives IG-88 (Assassin Droid) as a villain.

ADDITIONAL REWARDS

- Each player receives 1 XP. Heroes receive 100 credits per hero. The Imperial player receives 1 influence.
