STAR WARS

IMPERIAL ASSAULT

STORMTROOPERS

This pack provides alternate Stormtrooper plastic figures that can be used when playing skirmish and campaign missions. The other components in this expansion are incorporated as follows:

- Add the Deployment and Reward cards to their respective supplies.
- The Imperial player can choose the "Vader's Fist" Agenda set when building his Agenda deck at the start of a campaign.
- Shuffle the Skirmish Mission cards into the Skirmish Mission deck. These cards use the "Training Ground" skirmish map (see below).
- Add the Command cards to the pool of cards that a player can use to build his Command deck.
- ID tokens and stickers can be used to mark different groups corresponding to Deployment cards with the same name (see "Duplicate Figure Groups" on page 9 of the Learn to Play booklet in the Core Game).

COMPONENT BREAKDOWN

3 Plastic Figures (Stormtrooper)

3 Deployment Cards (2 Stormtrooper, Vader's Finest)

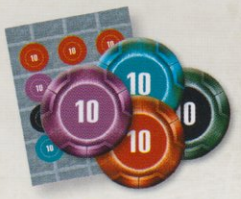

4 Command Cards (Reinforcements x2, Set For Stun, Stealth Tactics)

3 Agenda Cards (Vader's Fist)

2 Skirmish Mission Cards (Training Ground)

1 Reward Card (501st Training)

4 ID Tokens with 12 ID Stickers

COMPONENT LIMITATIONS

In a campaign, when using Deployment cards found in the core game, players are limited to the number of figures included in the core game. Therefore, the Imperial player is limited to six regular and three elite Stormtrooper figures, even if he owns multiple copies of the core game or this expansion.

SKIRMISH ATTACHMENTS

Some skirmish upgrade Deployment cards list the word "Attachment" above their abilities. These cards can be attached to other Deployment cards as follows:

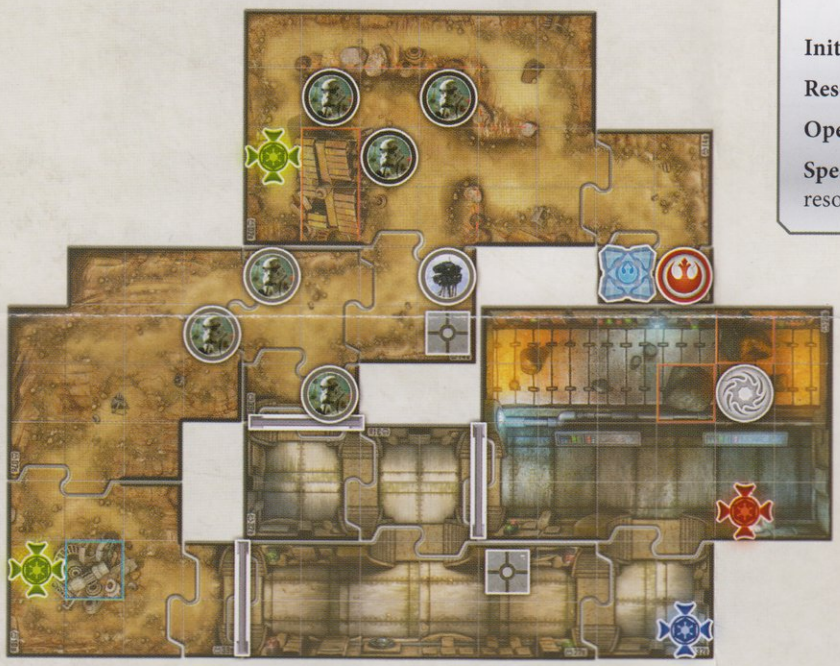

- When deploying units during skirmish setup, if a player has one or more "Attachment" cards included in his army, he places each of these cards on one of his non-upgrade Deployment cards.
- Each Deployment card can have only one "Attachment."
- Abilities on "Attachment" cards apply to all figures in the corresponding group.
- Many attachments require the group to have a specific trait, such as "*Trooper*." Attachments with these restrictions cannot be played on a group that does not have the trait.

When a group with an "Attachment" card is defeated, the opposing player scores VPs equal to the deployment cost of the "Attachment" card in addition to the VPs he scores from the defeated group's Deployment card.

- **Payload reaches the weak point or all heroes wounded:** End of Mission

MISSION BRIEFING

You march toward a training facility for the 501st Legion, also known as Vader's Fist. Command has informed you that this outpost is critical to Imperial logistical operations. Destroying it could break the Empire's grip in this sector.

The hoversled carrying the thermal payload is prepped and ready, but you'll need to get it in yourself. You know that this facility is directly connected to a stormtrooper barracks, however, so you expect plenty of resistance.

- The Rebel mission token represents the explosive payload.
- The neutral mission token represents the weak point.
- Doors are locked to Imperial figures.
- At the start of each Status Phase, if there is a healthy hero adjacent to the explosive payload, the heroes may advance it. If they do, they move it 3 spaces.
- The explosive payload cannot move through doors, impassable terrain, or blocking terrain.
- The mission ends at the end of Round 6, when all heroes are wounded, or when the explosive payload enters the weak point's space (🎯).

THE LEGION

After each time the heroes advance the explosive payload:

The Imperial player chooses 1 of the following:

- Reinforce 1 regular Stormtrooper.
- 4 ⚙: Deploy 1 regular Stormtrooper group.
- Increase ⚙ by 1.

INTO THE BREACH

The first time a door is opened:

The blast doors open and the internal defenses are ready for you. You hear shouts and commands as troopers align themselves into position to face you.

- Increase ⚙ by 1 plus the threat level and resolve an optional deployment to the blue point.
- Deploy the reserved Stormtrooper group to the red point.
- The red deployment point is now active.
- Doors are no longer locked to Imperials.

END OF MISSION

When the explosive payload enters the weak point's space:

The explosives go live, forcing everyone present to flee. The remaining stormtroopers ignore you as they retreat to their own ships. As you fly away, you see the smoking crater that was once an Imperial outpost.

- Heroes receive 100 credits per hero.

At the end of Round 6 or when all heroes are wounded:

You can't get the payload to the structural weak point and you're forced to retreat before Imperial walkers and bomb disposal agents come to undo your work. As you fly away from the outpost, you sigh wearily. You know you'll be seeing more of the 501st Legion, and soon.

- The Imperial player receives "501st Training" Reward card.

ADDITIONAL REWARDS

- Each player receives 1 XP. Heroes receive 100 credits per hero. The Imperial player receives 1 influence.
