STAR WARS

IMPERIAL ASSAULT

BT-1 AND 0-0-0

This pack provides the BT-1, Destructive Assassin and 0-0-0, Specialized in Pain plastic figures that can be used when playing a mission. The other components in this expansion are incorporated as follows:

- Add the Deployment, Condition, and Command cards to their supplies.
- The Imperial player can choose the "Devious Droids" Agenda set when building his Agenda deck at the start of a campaign.
- Shuffle the Skirmish Mission cards into the Skirmish Mission deck. These cards use the "Tarkin Initiative Labs" map (see below).

SKIRMISH ATTACHMENTS

Some skirmish upgrade Deployment cards list the word "Attachment" above their abilities. These cards can be attached to other Deployment cards as follows:

- When deploying units during skirmish setup, if a player has one or more "Attachment" cards included in his army, he places each of these cards on one of his non-upgrade Deployment cards.
- Each Deployment card can have only one "Attachment."
- Abilities on "Attachment" cards apply to all figures in the corresponding group.
- Many attachments require the group to have a specific trait, such as "*Trooper*." Attachments with these restrictions cannot be played on a group that does not have the trait.

When a group with an "Attachment" card is defeated, the opposing player scores VPs equal to the deployment cost of the "Attachment" card in addition to the VPs he scores from the defeated group's Deployment card.

NEUTRAL DEPLOYMENT CARDS

Deployment cards with a Neutral Icon and card back do not belong to an affiliation. When creating an army for a skirmish, a player may choose to include Neutral Deployment cards as if they belonged to his affiliation. Neutral Deployment cards cannot be used in a campaign.

Neutral Icon

RE-DRAW

Some Command cards have ability text that allows a player to **RE-DRAW** it. Re-draw abilities are active while the card is in the discard pile. When a player re-draws a Command card, he takes that card from his discard pile and places it in his hand. That card may be played again normally.

MISSION BRIEFING

A light on your datapad blinks faster as you approach the location where the Rebel operatives are being held. As you round a corner, you hear an officer shout, "Intruder alert!" and you are ambushed by the prison's guards.

- Doors are locked. A hero can attack the doors to the Corridor, Interrogation Room, and Cell (Health: Threat Level, Defense: 1▼). When the door to the Cell opens, the door to the Hall will open.
- Neutral mission tokens represent captives (Health: 5, Defense: 1↻). Captives are neutral figures. At the start of a Status Phase, each captive adjacent to a hero may move up to 3 spaces. When a captive enters the entrance, heroes claim that captive.
- If a captive is adjacent to a healthy hero, it cannot suffer ✖.
- Once per activation, a hero can suffer 1✖ to push an adjacent captive up to 2 spaces.
- The mission ends when both captives have been claimed (✋), when all heroes are wounded, when a captive is defeated, or at the end of Round 6.

FURTHER GUARDS

When the door to the Corridor opens:

- Deploy the reserved Stormtrooper group to any blue point.
- Increase ⚙ by the threat level.
- The blue deployment points are now active.

SPECIALIZED IN PAIN

When the door to the Interrogation Room opens:

A black protocol droid with shocking red eyes stands over a Rebel operative splayed on a torture table. "Oh, I'm sorry," the droid says. "We're terribly busy at the moment; could you come back another time?" He raises his electrified palm.

- Deploy the reserved 0-0-0 to the yellow point.
- Each Rebel figure gains 2 movement points.

EXPLOSIVE ENTRY

When the door to the Cell opens:

- Open the door to the Hall.
- Deploy the reserved BT-1 to the red point.
- Increase ⚙ by the threat level and resolve an optional deployment.

NO ESCAPE

When all doors are open:

- At the end of each Round, increase ⚙ by the threat level.

END OF MISSION

When both captives have been claimed:

With rocket explosions at your heels you drag the captives to safety beyond the facility, gasping and wheezing. A search is initiated, but you maintain a well-hidden position until the red glow of 0-0-0's eyes disappears.

- Heroes receive 100 credits per hero.

At the end of Round 6, when all heroes are wounded, or when a captive is defeated:

As you fumble and scramble through the chaos of the battle trying to find a safe escape, you look back. You see the operatives you were tasked with saving back in the custody of stormtroopers, being dragged before 0-0-0 and BT-1 once more. The droids' displays glow maliciously red.

- The Imperial player receives 0-0-0 (Specialized in Pain) and BT-1 (Destructive Assassin) as villains.

ADDITIONAL REWARDS

- Each player receives 1 XP. Heroes receive 100 credits per hero. The Imperial player receives 1 influence.
