STAR WARS

IMPERIAL ASSAULT

EMPEROR PALPATINE, SITH MASTER

This pack provides the Emperor Palpatine, Sith Master plastic figure that can be used when playing a mission. The other components in this expansion are incorporated as follows:

- Add the power tokens, Condition card, Deployment card, and Command cards to their supplies.
- If you own the *Heart of the Empire* expansion, the Imperial player can choose the "The Emperor's Plots" Agenda set when building his Agenda deck at the start of a campaign.
- If you own the *Heart of the Empire* expansion, shuffle the Skirmish Mission cards into the Skirmish Mission deck. These cards use the "Coruscant Senate Office" map (see below).

WEAKENED

Weakened is a new condition whose effects are detailed on its Condition card. Since this expansion does not include condition tokens for Weakened, a coin or other suitable substitute may be used instead.

POWER TOKENS

Various cards and abilities allow figures to gain **POWER TOKENS**. These tokens represent any number of things that increase a unit's effectiveness in battle, from enhanced armaments to affinity with the Force.

When a figure with a power token declares an attack or is declared as the target of an attack, that figure may discard 1 of its power tokens. If it does, apply +1 of the symbol on that token to that attack's results. For example, if a figure spent 1, that figure's player would apply +1 to the defense results.

A power token showing a damage symbol

When an ability instructs a figure to gain a power token, that figure's player claims one token matching the symbol of the power token listed in the ability from the supply and places it either near that figure on the board or on that figure's deployment card or hero sheet if that figure is the only figure in its group. When an ability instructs a player to gain any number of , that player gains that number of power tokens of his choice.

Each figure cannot have more than 2 total power tokens. If a figure would gain more than 2, its player must choose tokens to discard until the figure has 2. A figure cannot spend more than 1 power token per attack.

TIME PERIOD

In order to allow a more open-ended play experience, the missions in this expansion do not include time periods and can therefore be used in any campaign.

EVENT SUMMARY

- **Each round:** Insidious
- **Round 6:** End of Mission

- **First door opens:** Guarded
- **Hero retrieves records:** The Puppetmaster
- **Records uploaded or all heroes wounded:** End of Mission

MISSION BRIEFING

You infiltrate an ISB installation on Coruscant in search of records of any undercover operatives at work within the Rebel network. As you make your way through the facility, you feel yourself preoccupied by a sense of being watched, as if there is a shadow in your mind.

Without warning, the trap is sprung and your point person is grabbed by both arms!

- Rebel players choose 1 hero. That hero is deployed to the black point, suffers 2✦, and becomes Weakened.
- Doors are locked. A Rebel figure can interact with a terminal (🔧 or 👁) to flip it to its colored side. During the test, that figure may suffer 1✦ to reroll 1 die.
- When both terminals are flipped to their colored sides, the doors unlock.
- The mission will progress when a door opens (⏻). The mission ends at the end of Round 6 or when all heroes are wounded.

INSIDIOUS

At the end of each Round:

- Choose up to 3 figures. Those figures each suffer 1✦ and gain 1✦.

GUARDED

The first time a door opens:

- The red deployment points are now active.
- Increase ⚙ by the threat level.
- Deploy the reserved Royal Guard group divided between the blue points.
- The neutral mission token represents the records. A hero can retrieve the records (👁). During the test, that hero may suffer 1✦ to reroll 1 die. The mission will progress when a hero retrieves the records (⏻).

THE PUPPETMASTER

The first time a hero retrieves the records:

A chill runs down your spine as you examine the records. They indicate that numerous Rebel agents have suddenly begun to turn on their cells, even familiar names you would have never thought would betray the cause.

As you are reading, a shadowy robed figure slips into the room. "Have you fools found what you seek...?"

- Deploy the reserved Emperor Palpatine to the yellow point.
- "Insidious" no longer triggers.
- Close all open doors. Doors are locked. A Rebel figure can attack a door (Health: Twice the threat level, Defense: 2▼). A Rebel figure can interact with a door (X 🔧 or 🔧; X is equal to the threat level).
- Increase ⚙ by the threat level.
- The next time a door opens, increase ⚙ by the threat level and resolve an optional deployment.
- Whenever a Rebel figure spends a ✦, that Rebel figure suffers 1✦.
- A hero carrying the records can interact with a terminal to upload them, ending the mission (⏻).

END OF MISSION

When a hero uploads the records:

You execute a narrow escape back to the safety of your ship and further review the records you recovered. You now know the Emperor himself is somehow involved in this rash of defections, but you cannot determine how or why.

- Heroes receive 100 credits per hero.

At the end of Round 6 or when all heroes are wounded:

The Emperor's cackling laughter follows you as you flee the installation. Though you were unable to bring back information about a double agent, you at least now know of the Emperor's involvement.

- The Imperial player receives **Emperor Palpatine** (Sith Master) as a villain.

ADDITIONAL REWARDS

- Each player receives 1 XP. Heroes receive 100 credits per hero. The Imperial player receives 1 influence.
