STAR WARS

IMPERIAL ASSAULT

LANDO CALRISSIAN, CHARMING GAMBLER

This pack provides the Lando Calrissian, Charming Gambler plastic figure that can be used when playing a mission. The other components in this expansion are incorporated as follows:

- Add the Deployment and Command cards to their supplies.
- If you own the *The Bespin Gambit* expansion, add the Side Mission card to the pool of gray Side Mission cards.
- Shuffle the Skirmish Mission cards into the Skirmish Mission deck. These cards use the "Lothal Safehouse" map (see below).

DICE TYPES

Some abilities refer to a die's type. A die's type is either "attack" or "defense."

- Blue, Red, Green, and Yellow dice are attack dice.
- Black and White dice are defense dice.

HIDDEN

Hidden is a new condition whose effects are detailed on its Condition card. Since this expansion does not include condition tokens for Hidden, a coin or other suitable substitute may be used. These tokens are included in the *The Bespin Gambit* expansion.

MISSION BRIEFING

Some credits at a seedy cantina help you discover a black market sale at a dock in the lower levels. A few more credits reveal a name: Ras. This is not the name you wanted to hear. He's the Rebellion's primary shipping contact on Cloud City.

- The door is locked.
- While attacking, the Junk Droid gains Pierce 1.
- A Rebel figure can interact with the blue terminal (👁 or 🔧) to discard it and unlock the door to Rebel figures.
- The mission progresses when the door is opened (⏻).
- The mission ends at the end of Round 6, or when all heroes are wounded.

THE UPPER HAND

At the end of Round 1:

"Ras, I told you what would happen if you 'lost' another one of my shipments," you overhear, punctuated by blaster fire. You aren't the only aggrieved party.

- Deploy Lando Calrissian to the entrance.
- Increase ⚙ by 6 and resolve an optional deployment.

EXTRA SECURITY

When the blue terminal is discarded:

- Increase ⚙ by the threat level and resolve an optional deployment.

CORNERED!

When the door is opened:

"Looks like you rubes were paying attention, after all." Ras fidgets with a console. "But you're too late. I've got a deal with the Empire, and these shipping logs will make me rich. Who would have known 'to' and 'from' labels could be so valuable? Your secret bases won't be secret for long!"

- The red deployment point is now active.
- Increase ⚙ by the threat level and resolve an optional deployment.
- Deploy the reserved Imperial Officer to the red point. The Imperial Officer is Ras.
- Apply additional Health to Ras equal to the threat level.
- A Rebel figure can interact with the red terminal (2 👁 or 🔧) to discard it.
- The mission ends when the red terminal is discarded and Ras is defeated (⏻).

END OF MISSION

When the red terminal is discarded and Ras is defeated:

You put a few more holes in the console before turning back to the wounded Ras. His interference ended; he will answer directly to High Command.

"I told you this would happen," Lando gloats, looking over the wares. "Ah, this is good brandy. My lucky day."

- Rebel players choose one hero to receive the "Lady Luck" reward card.

At the end of Round 6 or when all heroes are wounded:

Unaware of the situation, additional Wing Guard arrive to find you assaulting a critical industrial dock. You are led away under guard. Though Lando helps you smooth things over (with a sizable sum of credits), you were unable to resolve Ras's treachery.

- The Imperial player receives 2 influence.

ADDITIONAL REWARDS

- Each player receives 1 XP. Heroes receive 100 credits per hero. The Imperial player receives 1 influence.
